Notes

The indexes are arranged in alphabetical order of surnames. Each volume contains the marriages which were registered in the period shown on the spine.

Before 1966 each index covers several years and relates to a particular form of registration; ie Services only, Consular only, etc.

Since 1966 each index is composite, ie each contains all marriages registered overseas in one year only.

If you cannot find the marriage in the year when it occurred, look in the indexes for the next two years, when it may have been registered.

If you are not sure you have found the correct entry see overleaf.
